

Portable toilet hire (short term hire)

We are the number one supplier of portable toilets throughout the North West.

Our weekly hire portable toilets are maintained and serviced to the highest standards.

Our portable toilets are sturdy, high-quality and easy to manoeuvre. Each toilet includes a:

- re-circulating flushing system
- forearm sized wash arm basin
- 2-roll toilet holder
- coat hook
- vanity mirror
- internal lock

Our short term hire units are available for up to 1 week in duration for a fixed price including hire and transport. This hire structure tends to be more suited to short-term construction work or events.

Why us?

We are a family-run business and over our 30 years in business we have developed a strong reputation for customer satisfaction and top quality service, recently winning North West Family Business of the Year 2023 in our category.

We are a CHAS, ISO 9001 and ISO 14001 certified business, and a proud Real Living Wage employer.

We pride ourselves on our service – this is what sets us apart from our competitors. We will do everything we can to meet the expectations we have of ourselves, and those that you set us.

Frequently asked questions

How many portable toilets do I need for my site?

For a construction site, the current British Standard BS6465-1:2006 states that 1 toilet, serviced weekly, should be provided for every 7 workers. If you're hiring for an event that is planned to run for a few hours, we would generally recommend 1 portable toilet for every 70-100 guests. If alcohol will be consumed, we would suggest opting for a higher ratio. Please contact us for assistance with your particular event.

What size are the toilets?

Dimensions	
Height	2286mm
Width	1118mm
Depth	1219mm
Dry weight	105kg

How much does it cost to hire a portable toilet?

Please contact our friendly team to discuss pricing options on 0161 344 2581 or at customercare@challengernw.co.uk. We offer discounts depending on the number of toilets you require.

How soon can you deliver to my site?

We endeavour to operate a next day delivery service but can often accommodate same day deliveries too. However, for events we would suggest booking as far in advance as possible, particularly during the summer months.

What happens to the waste?

We remove the waste on a weekly basis and return it to our depot, where we have a paid consent from United Utilities to discharge it into the public sewer.

What access is required for delivery?

Toilets are delivered using 3.5 tonnes delivery vehicles. They are loaded / unloaded using a tail lift – no Hiab is required.

Can you provide waste transfer notes?

Yes, a waste transfer note including a photo of the service taking place is automatically generated after each service. These can be emailed automatically if required.

Will the toilets be serviced?

Our short term hire option is designed so that the units don't require servicing. However, we are happy to put a quote together for additional servicing if required.
